**Clark County 4-H Welcomes You!**

4-H comes alive through youth and parent participation in numerous activities based upon your own interests. Youth and parents find lifelong friends around similar topics of interests, hobbies, or the adventure to learn new things. Positive 4-H experiences are created through building relationships, trying new things, and being able to laugh at yourself and with each other.

In this folder, you will find information regarding:

- Enrolling in 4-HOnline as a new family
- Project Guide (various activities your family can participate in)
- A Journey Through Your First Year (what you can be semi-prepared for)

“The CloverLeaf” is Clark County’s monthly 4-H newsletter. The newsletter is your most valuable tool for up-to-date information about 4-H programs, activities, and workshops at the club, county, district, and state levels. You will not receive a 4-H newsletter until your online enrollment is complete. We take our mailing labels directly from the 4-HOnline program.

All adult leaders must attend a Volunteer Orientation program, which includes a Justice Department background check. The safety of our 4-H youth is our primary concern. 4-H is a national organization with a history of developing character, competence, confidence, caring, community contributions, and connections to something bigger. Through active participation in your local club, county programs, and state activities these skills will develop.

We are here to serve you.

Sincerely,

A handwritten signature in black ink that reads "Christine Hollar".

Christine Hollar, Ed.D.  
4-H Youth Development Agent  
Clark County
