

Pre-Registration

Why

- Pre-registration is required. Due to limited funding, wastes that are not pre-registered could be rejected.

When/Deadline

- Registration is open. You can register between now September 1st OR until full (whichever comes first).

If you are mailing in a registration form, it must be **postmark by August 17** to ensure enough delivery and entry time.

How

POSTMARK PRE-REGISTRATION FORM BY AUGUST 17 TO:

UW-Extension Clark County Clean Sweep
517 Court Street, Room 104
Neillsville, WI 54456

OR

Register Now

Register online by September 1 at:

2024 Clark County Ag & Household Clean Sweep Tire, Battery, & Appliance Collection

What Is Clean Sweep?

Clark County's Agricultural & Household Clean Sweep program will give farmers and residents an opportunity to dispose of hazardous chemicals to help protect our surface and groundwater.

Why Is the Clean Sweep Necessary?

The average U.S. citizen generates somewhere between 6 and 15 pounds of household hazardous waste annually. Applying those rates to Clark County's 34,774 residents, our county generates between 208,644 to 521,610 pounds of household hazardous waste each year.

What Are Waste Chemicals?

Chemicals become waste when they are no longer wanted or when they can no longer be used. Waste pesticides include banned products, products damaged during storage or by contamination, outdated or surplus amounts of products, and products which are no longer in use because they have been replaced by more effective products.

How Is Hazardous Waste Identified?

Hazardous waste can usually be identified by product labels which contain words like: **caution, warning, danger, poison, toxic, ignitable or flammable, acid, corrosive, or reactive.**

How Much Waste Can I Bring?

To ensure fair access and the widest possible participation by all Clark County residents, the following limits have been established:

Agricultural: Farmers and farm households will be allowed to bring a total of 200 pounds of hazardous waste. Any amounts above 200 pounds will be charged \$2.00/lb. DO NOT MIX LIQUIDS and/or SOLIDS.

Household: Each household may bring up to and no more than a combination of 5 gallons of liquid OR 50 pounds of solid hazardous waste. Any amounts above these quantities will be charged \$2.00/lb. DO NOT MIX LIQUIDS and/or SOLIDS.

Batteries (car and rechargeable): No limit.

Tires and Appliances: No limit—fee required.

SEPARATE FARM AND HOME HAZARDOUS WASTE

How is Clean Sweep Sponsored?

- Clark County Board of Supervisors
- Department of Ag, Trade & Consumer Protection Grants
- Atmus Filtration (Cummins) Grant

Leadership for the Clean Sweep effort is through the following Clark County Departments:

- UW-Extension
- Emergency Management
- Public Health
- Forestry & Parks
- Highway
- Sheriff's Department

Extension

UNIVERSITY OF WISCONSIN-MADISON
CLARK COUNTY

Clark County reserves the right to reject any materials brought to Clean Sweep which do not meet the reasonable intent of the program.

No materials, including tires and appliances will be accepted before or after Clean Sweep hours.

Clark County Clean Sweep 2024

September 6th

Owen - Highway Department
9:00 - 11:00 a.m.
Neillsville - Fairgrounds
1:00 - 3:00 p.m.

Disposal Prices

PRICES

Tire Size
 20" and under*
 21" and over* \$5.00
 Tractor (25" and over)
 Oversize tires (skidder/end loaders, etc.)*
 *subject to change

Cost Per Tire

Estimate how many you will bring on the pre-registration form.

Appliance Collection Items

TV's (10" - 12")
 TV" (13" - 32")
 TV's (33" and larger)
 Computer Monitors
 Hard Drive Destruction
 Microwaves
 Freezers/Refrigerators
 Air Conditioners
 Florescent Lights (tubes)
 CFL Lights

Cost Per Item

White Goods (no coolant)
 (i.e. dishwashers, dehumidifiers, stoves, washer/dryer)

Batteries (rechargeable)

MEDICATION

OTC and Prescription
 (do not mix medications—they must be in original containers)

What You CAN Bring to Clean Sweep...

- Agricultural**
 fungicides, herbicides, insecticides, rodenticides, captan, parathion, toxaphene, heptachlor, lindane, 2,4,5-T/Silvex, dioxin products, poisons, animal health products, acid washes, sanitizers. DO NOT MIX LIQUIDS and/or SOLIDS.

- Appliances**
 televisions, refrigerators, washing machines, air conditioners, central heating/cooling units, heat pumps, computers & related equipment, microwaves, freezers, dryers, sump pumps, copiers, heat lamps, stoves/furnaces, dehumidifiers, and hot water heaters.

- Automotive**
 engine & carburetor cleaners, fuels, ether, brake, transmission & hydraulic fluids, vehicle batteries, and tires.

- Batteries**
 Motorcycle, lawn mower, auto, truck, and tractor.

- Household**
 air fresheners, moth balls, drain & oven cleaners, dry cleaning fluid, spot remover, mildew cleaner, paints (oil and lead), peroxide, swimming pool chemicals, and floor, silver & furniture polishes, thermostats (in plastic bag/container).

- Lawn & Garden**
 insect repellent, arsenic, insecticide, chlordane, DDT, malathion, pesticide, poison, fungicide, rodent & slug bait, herbicide, and 2-4-D.

- Medication**
 all medications (in original containers—cross off personal names), thermometers (in plastic bag/container); no needles allowed.

- Tires**
 passenger, truck, and tractor
 NO RIMS ACCEPTED / empty water from tires

- Unknown chemicals**
 greater than 5 gallons or 50 pounds.

- Workshop**
 glue, stripper, gun cleaning fluids
 thinner, lacquer, turpentine, lead-based & oil paints, varnish, pentachlorophenol ("Penta"), and wood preservatives containing PCP's.

- Well Pumps**

2024 Clark County Clean Sweep Pre-Registration Form

Name _____

Mailing Address _____

Township/City _____

Phone _____

Email _____

- ___ Farm
- ___ Household (not Farm)
- ___ Government/Municipality
- ___ Ag Business
- ___ Non Ag Business
- ___ School

Preferred Drop-off Locations:

- ___ Owen - Clark Cty Highway Dept. (9-11 a.m.)
- ___ Neillsville - Clark Cty Fairgrounds (1-3p.m.)

Items I plan to bring to Clean Sweep:

(X) Items that apply	Estimated Quantity
___ Appliances	_____
___ Batteries (vehicle)	_____
___ Tires	_____
___ 20" or smaller	_____
___ 21 - 24"	_____
___ 25" or larger	_____
___ Household Items	_____
___ Medications	_____ pounds
___ Dry Materials	_____ gallons
___ Liquids	_____ gallons
___ Ag (farm households included)	_____
___ Dry Materials	_____ pounds
___ Liquids	_____ gallons

1 gallon weighs 10 pounds / 1 full 55 gallon drum weighs 550 pounds

Do you have hazardous waste in amounts higher than the acceptable limits?

(See "How Much Waste Can I bring?")

___ Yes ___ No

I will be bringing (check all that apply):

- ___ "unknown" hazardous waste (over 5 gallons or 50 lbs)
- ___ 30 or 55 gallon drums

What You CANNOT bring to Clean Sweep...

Due to restrictions imposed by the hazardous waste disposal company and the Environmental Protection Agency, the following **cannot** be accepted:

- Waste motor oil & antifreeze (see automotive garage for collection alternatives)
- Batteries - household (AA, D, etc.)
- Propane cylinders
- Explosives (ammunition & fireworks)
- Infectious & biological waste (medical, etc.)
- Radioactive materials (smoke alarms)
- Needles
- Latex paint (to discard open the can and allow to dry out and then dispose of in regular garbage. For large volume dump in another container to increase surface area to dry out.)

Agricultural: Farmers and farm households will be allowed to bring a total of 200 pounds of hazardous waste. Any amounts above 200 pounds will be charged \$2.00/lb.

Household: Each household may bring up to and no more than a combination of 5 gallons of liquid OR 50 pounds of solid hazardous waste. Any amounts above these quantities will be charged \$2.00/lb.

DO NOT MIX LIQUIDS and/or SOLIDS.

How Should I Prepare Hazardous Waste or Appliances for Transporting to Clean Sweep?

- Materials should be properly identified in their original containers, with original labels. Unknown materials can be brought in, but Clark County reserves the right to refuse any substances which it cannot dispose of.
- Do not mix substances together! Doing so can be extremely dangerous.
- When preparing materials to bring to the Clean Sweep, pack them carefully for your own safety and protection. Materials should be placed in a cardboard box, lined with a plastic bag. Separate each product with folded newspaper. Be sure materials are secure for transport to avoid spilling or breakage.
- Do not transport hazardous material in the passenger compartment of the vehicle.
- Keep hazardous materials away from children and animals while transporting.
- Do not risk injury when you move a large appliance. Wear sturdy shoes and gloves, use a dolly, and get plenty of muscle power to help.
- If you are going to leave a refrigerator outside for later delivery, remove the door. Children playing in old refrigerators have suffocated after becoming trapped inside.
- Do not try to remove the metal or other parts of your appliance. You might end up breathing any harmful chemicals you release. Leave that job for the professionals who are trained, licensed, and equipped to handle hazardous materials.
- Tie the appliance down tightly to keep it from falling over. A tumble could break the coolant line or capacitor and release CFC's or PCB's into the atmosphere. A secure load protects your vehicle.
